

The current centre entrance is not visible from the main road or pavement. The entrance could be more welcoming if rotated to face the street, and had improved lighting and signage to show where the entrance is.

What we could do:

- A more welcoming entrance
- Better signage
- More greenery
- Street presence
- Sustainable improvements
- Outside play and activities
- Somewhere to sit
- A place to grow things

What we could do:

A flexible entrance space

A new reception

A coffee shop or cafe space

Spaces to sit outside

Play spaces

Flexible rooms that can be organised

New interior design with:

- Sustainable materials
- Flexible storage
- Room dividers
- Low maintenance
- Easily repaired

What we could do:

- Flexible workspace
- Games rooms
- IT suite
- Smaller rooms to meet
- An improved interior
- New bathrooms
- Spaces for different activities
- Open spaces for classes & learning
- Spaces for sport, activity and exercise
- Play spaces
- Places for media creation - podcasts, video editing, making music
